**DETAILED ACTION**

***Prosecution History Summary***

Claims 1-16, 21-23, and 33 have been cancelled.

Claims 17-20, 24-32, and 34-36 are pending and allowable as set forth below.

***Response to After Final Amendment***

In view of the After Final amendment filed 2/17/2009, PROSECUTION IS HEREBY REOPENED. The Examiner further notes that the amendment filed after final on February 17, 2009 is hereby entered with this action. The noted claims are allowable for at least the reasons below.

***Examiner Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In the Title**

The title has been amended to read as follows:

--Closing System for closing real-estate transactions between a plurality of parties--

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Upon review of the evidence at hand, it is hereby concluded that the evidence obtained and made of record, alone or in combination, neither anticipates, reasonably teaches, nor renders obvious the below noted features of applicant's invention as the noted features amount to more than a predictable use of elements in the prior art. The allowable features are as follows:

Claim 17 recites a closing module executed on the closing server, wherein the closing module presents at least one pre-defined closing condition, the at least one predefined closing condition comprising:

*a first active classifier, wherein the at least one predefined closing condition is deemed to have fails if not approved before the at least one first deadline as well as*

*a first passive classifier, wherein the at least one pre-defined closing condition is deemed satisfied if not disapproved before the at least one first deadline expires.*

In addition, claim 17 also recites similar functionality with regards to a *custom closing condition*. The Examiner asserts that such features are not taught or rendered obvious by the prior art made of record. In addition to the above, the Examiner emphasizes the interrelation of the above distinguishing elements with the remainder of each respective claim element, and further notes that it is that interrelation that truly distinguishes Applicant's invention from the evidence at hand. Moreover, none of the evidence at hand teaches or suggests the combination of features claimed, nor does there exist an appropriate rationale for further modification of the evidence at hand.

It is hereby asserted by the Examiner that, in light of the above and in further deliberation over all of the evidence at hand, that the claims are allowable as the evidence at hand does not anticipate the claims and does not render obvious any further modification of the references to a person of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record below is considered pertinent to applicant's disclosure but fails to remedy the above noted deficiencies.

**Non-Patent Literature**

PTO form 892 reference U teaches the use of computerized system for automating closings of real-estate transactions. The reference, however, fails to teach or render obvious the above noted features.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to WILLIAM J. ALLEN whose telephone number is (571)272-1443. The examiner can normally be reached on 8:00 AM to 5:30 PM.
